PROFILE

Computer Science undergraduate specializing in Data Science, with hands-on experience across full-stack development, machine learning, and embedded systems. Two research publications, strong fundamentals in DSA/OOP, and a track record of shipping projects end-to-end – from web applications to ML pipelines to IoT systems.

EDUCATION

Dayananda Sagar University

Computer Science Engineering in Data Science

Bangalore, Karnataka

Sep. 2023 – Sep. 2027

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, C, JavaScript, TypeScript

Web & APIs: React, Next.js, REST APIs, Tailwind CSS

ML & Data: NLP, Scikit-learn, Pandas, NumPy, Matplotlib, Feature Engineering, MLflow

Systems & Cloud: Docker, Microsoft Azure (Certified), MySQL, PostgreSQL, Firebase, Supabase

Embedded & IoT: ESP8266, Embedded C, Sensor Interfacing

Core CS & Tools: DSA, OOP, DBMS, Operating Systems, Git, GitHub

TECHNICAL PROJECTS

AI Resume Analyzer | *Python, NLP, Streamlit – In Progress*

- Building an NLP-based pipeline to parse resumes, extract structured metadata, and score compatibility against job descriptions.

BlinkBlizz – Premium Virtual Office Marketplace | *Next.js, React, TypeScript, Supabase, Firebase, PostgreSQL*

- Built a full-stack marketplace with RESTful APIs, secure authentication, and a PostgreSQL database with Row-Level Security.

Formula 1 Race Winner Prediction (MLOps) | *Python, Scikit-learn, MLflow, Joblib*

- Built an end-to-end ML pipeline with feature engineering, experiment tracking (MLflow), and deployed inference.

DeepAnom: Hybrid TimeGAN-LSTM Autoencoder | *Python, Deep Learning – Published, ICSCSS 2026*

- Developed a hybrid deep learning framework combining TimeGAN and LSTM Autoencoders for time-series anomaly detection in IIoT systems.

ReFyn: Automated ETL Pipeline | *Python – Accepted, STSDG 2026*

- Built an automated ETL pipeline for processing heterogeneous data sources for analytics.

Smart Parking System (IoT) | *ESP8266, Embedded C, Ultrasonic Sensors*

- Built an IoT-based smart parking system with real-time occupancy detection and cloud-based remote monitoring.

Docker Private Registry with Authentication | *Docker, Docker Registry v2, Flask*

- Set up a private Docker Registry with Basic Authentication, covering image build, tagging, and push/pull workflows.

CERTIFICATIONS

Microsoft Azure Data Fundamentals (DP-900) | **Oracle AI Foundations Associate** | **MATLAB Onramp** | **Introduction to Computer Networking** | **Ethical AI**

LEADERSHIP

Football Team Captain – Led the college team during inter-college competitions.

ACHIEVEMENTS

Research papers accepted at STSDG 2026 and ICSCSS 2026; winner of multiple inter-college creative writing and poetry competitions.
